Dear Sir/Madam,

**Brodick Terminal Redevelopment
Public Meeting**

Caledonian Maritime Assets Ltd (CMAL) are committed to providing, safeguarding and developing the ferries and harbours they are responsible for throughout Scotland.

Moving on from earlier consultation work between 2005 and 2008, regarding the transport needs at Brodick (by the then Caledonian MacBrayne), CMAL have now appointed Halcrow Group Limited to undertake design development work for infrastructure improvements at Brodick Ferry terminal. The design development will build on the previous work and will culminate in the production of a terminal masterplan, which will in turn form the basis of the detailed design.

We would like stakeholders to contribute to the design development at Brodick Ferry Terminal and to this end you are invited to a public meeting we will be holding in **Brodick Hall on Monday 3rd December 2012, at 7:30pm.**

We will also be providing an update on our review of potential new vessels to serve Arran and Mull.

We look forward to seeing you at Brodick Hall, however if you have any questions ahead of the meeting please do not hesitate to get in touch.

Yours faithfully,

Ramsay Muirhead
Civil Engineer, Harbours
