

# MISSION COMMUNICATIONS

**Providing Integrated Communication Solutions**

## MISSION COMMUNICATIONS S/F SATELLITE BROADBAND

*The anywhere satellite broadband service is not only for broadband it can also service VoIP telephone, CCTV and even TV services, the KA Sat satellite was launched on the 26<sup>th</sup> December 2010 with the sole intent of providing a fiber equivalent service **ANYWHERE** in Europe, parts of Asia and North Africa. See below a variation of service options, these are a popular selection of services, however if you know exactly what you require, Download, upload and data requirement we can put together a bespoke package tailored exactly to you and your business requirements. **WHETHER YOU HAVE NO BROADBAND OR A POOR SERVICE, WE CAN SORT IT FOR YOU NOW!!!***

## Getting you connected wherever you need it, whenever you want it...

The Internet Anywhere service connects your computer to the internet via a high-speed connection with the new Ka Sat Internet Anywhere satellite. Wherever you're located Internet Anywhere offers you up to 20 Mbps download, 6 Mbps upload. You can also hire or rent Internet Anywhere short or long term.

With Internet Anywhere services, you'll also get a proper UK IP address giving you access to UK websites and content. If you need them for business applications there are Internet Anywhere tariffs, which provide Static IP addresses too. Internet Anywhere is up to 35 times faster than many fixed line broadband (ADSL) connections. A single satellite -dish and a modem are all you need.

Whether you're relaxing at home, shopping online, need the internet to work from home, or your business location, Internet Anywhere can get you connected. Contact us now to learn more.

There is a range of tariffs to suit every need and every budget. If you need friendly free advice on the right one for you contact us now.
